BULLBARN.COM

Bull Barn Genetics Gelbvieh 2020 Sire Catalog

In the past few years, the beef industry has changed more than any other 20 year period. We too, are making changes in the merchandising of semen. We have on our website (www.bullbarn.com) the pictures of sires for you to view. You may print a copy of our catalog from of the pictured bulls on our website. Enclosed is a complete listing of Gelbvieh genetics available in today's market. The order of the bulls in this catalog is black purebred, black balancer, red purebred and red balancer. Please check out our list of bargain bulls at the end of the catalog. In the near future nearly all semen will be packaged in ¼ cc straws. The major reason for change is storage. You can store 20 units in the same amount of space it takes for 10 units in ½ CC straws. As a rule conception is higher when caution is used when handling ¼ CC straws. Try to use tweezers and be careful not to pull semen canes above the neck of the tank. Use a ¼ CC gun or a Universal Gun that is capable of handling ¼ and ½ CC straws. See add for the Estrotec universal gun. Eldon says once you use this gun, you will throw all your other guns away. It is a common misconception that there is less semen in a ¼ CC straw since there is less volume in the straw. The fact is the volume of extender in the straw is adjusted based on ¼ or ½ CC production but the semen concentration remains the same.

Bulls are listed by age, youngest to oldest

If we can be of any service, let our over 40 plus years of semen knowledge in Gelbvieh and other breeds help lead your program down a path of success. Progeny are the true transmission of genetics, and we encourage more emphasis on looking at progeny as they become available. We have provided the EPDs and accuracy to help in your sire selection.

ESTROTECT™

Universal Insemination Gun

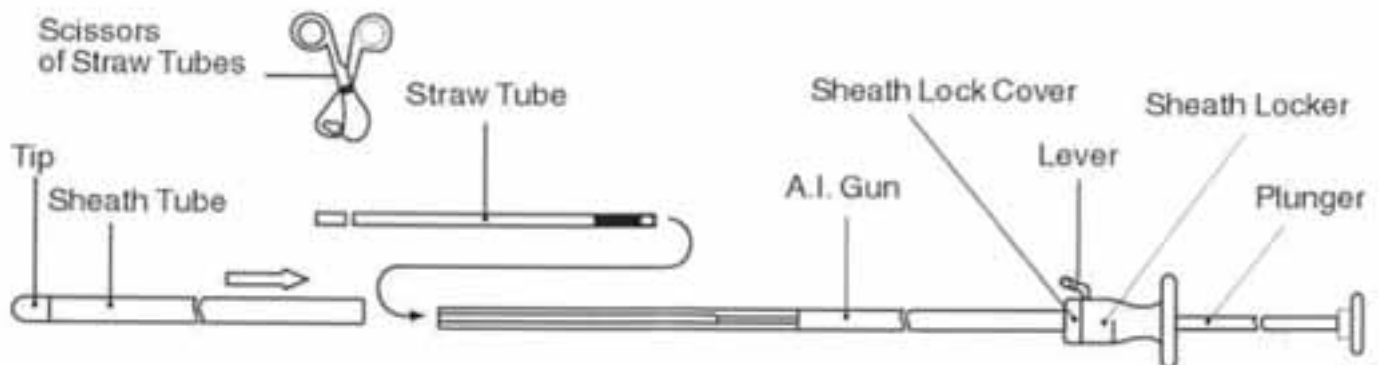

Artificial Insemination Guns are a critical piece of equipment used for nearly all AI protocols in cattle and are available in varieties & various quality. But unlike the competition, the ESTROTECT AI gun is your all-purpose solution, as it works with 0.5 ml straws, as well as 0.25 ml straws.

This ESTROTECT A.I. Gun has numerous advantages compared to any other type & make of A.I. Guns available in the market, including:

- Use any type of A.I. Sheaths (Medium, Mini & Universal), split or unsplit can be used.
- Self-locking of sheath by simply pushing it into the Gun.
- Sheath can easily be released by pressing release lever.
- Plunger locking device avoid falling of plunger during handling.
- Three stainless steel tubes reinforced body give more strength to A.I. Gun.
- No donut ring is used, therefore no worry of losing and misplacing it.

Since the introduction of these A.I. Guns by ESTROTECT many AI technicians have quickly adapted to these AI guns.

Reg No. AMGV1468377**Semen: \$ 40**

Lot #131 from the 2020 Maternal Empire Bull Sale sold for \$35,000.00. This is the best purebred bull in phenotype I have seen in my 50 years of raising Gelbvieh cattle. This bull is long bodied with a big butt, wide top and has good feet and legs to go with the excellent rib shape. The dam of 8660F was 17 years of age when flushed. The cow was a never miss in matings and creates lessor growth EPD's with her age. Cedar Top Ranch will use 200 units in 2020. Eldon Starr Cedar Top Ranch and Bull Barn Genetics.

Reg No. AMGV1468264**Semen: \$ 35**

Lot #136 from the 2020 Maternal Empire Bull Sale. This may be the very best bull we have ever produced. Yes he is a purebred and we have big plans to use this bull heavy this summer on angus cows to make incredible Balancers. Only problem is we can't decide between him and his flush brother lot 131, which one we like the best. Both bulls can move with any saddle horse in the country, I mean they can really walk out like herd bulls. Thick made and base wide, the kind that makes tremendous feeding steers. These 2 bulls will be easy to sell semen if you're into that but better yet they will leave a set of bulls, females or steers that all will envy.

Born: 4/23/2018

Igenity: Tenderness/Docility - 3 / 7

Defects AMF-PMelf-DDF-NHF-OSF

Purchased by C-Cross Cattle Company in the 2019 Building a Legacy Sale, Southeastern is the highest selling bull (\$24,000) in the history of the Kittle Farms program. His pedigree merges the top two donors in the Kittle Farms program, his paternal granddam, KCF Miss Fortune U490 (dam of multiple AI Sires, including Chief Justice, New Horizon, Black Baron, and Final Frontier) and his dam, JKGF Ladybug A012 (dam of the record setting Balancer Sire Ditka C85). As the maternal brother to Ditka C85, Southeastern allows breeders to take advantage of the eye appeal, performance, and EPDs of the popular Ditka line but in a Purebred Gelbvieh package. Southeastern checks even the most difficult boxes to reach in current Purebred genetics

High carcass merit sire with strong beef bull phenotype, dominated his contemporaries both from a growth and ultrasound standpoint. His dam 7309T is a true 'Carcass Cow' with a stellar record as a donor. ARMSTRONG is impeccable from a foot and structure standpoint with added body and stoutness. Note that the pedigree of ARMSTRONG's dam 7309T has recently been changed by the American Gelbvieh Association. This makes 7309T a Balancer and changes ARMSTRONG's %Gelbvieh to PC75. DNA tested homozygous black, homozygous polled.

DANELL MOONDANCER 24X

Homo Polled - Homo Black

Torrid is a homozygous-polled, homozygous black Gelbvieh Balancer calving-ease sire on a moderate frame with CED in the Top 20%, CEM in the Top 25%, YW in the Top 30%, PG30 in the Top 5%, CW and Marbling in the Top 15%, FPI in the Top 20%, and a Tenderness score of 9! Torrid's dam is a beautifully uddered mama cow with great feet and a good disposition that (on five calves) averaged a 113 WW ratio and a 101 YW ratio! Her own performance shows a 78# birthweight (97 BW ratio) with a 103 WW ratio and a 110 YW ratio! His maternal great granddam is still producing outstanding seedstock for us at 13 years old with a heifer-perfect udder! Torrid's sire has proven himself in our herd as a great heifer bull

Homo Polled - Homo Black

OVER For Justice 217F is a Homo Black Homo Polled calving ease prospect that charts a CED in the top 2%. This smooth made attractive bull is more than just a calving ease option, he's a larger outlined bull that offers marbling and breed leading FPI. This is a sound, free moving individual from a time tested cow. Maternal sisters to 217F have been super producers.

Polled - Black

CTR Answer 6809D ET

Black and Homo Polled. Maternal excellence would best describe this bull. Dam is the great 198L and sired by the female maker Answer 7304. Progeny exhibit moderate frame and added base width these cattle will fit lower input environments. Although not a heifer bull but 6809 will lower birth weights with excellent calving ease and make the right kind as well as any bull you can find to use. Add this bull to your program for top shelf females and bulls the the commercial cowman desires.

Black Balancer 38%

19C is a Homo Black Homo Polled ET son of the popular Basin Payweight 1682 sire. Early progeny are displaying exceptional growth backing up his phenomenal growth EPD's of WW (5%), YW (15%) and carcass weight top 3%. Carcass is just as impressive with marbling in the top 35%. The best part about 19C is that the progeny are standouts. They exhibit his impressive bone and foot with added muscle and length, coupled with added rib shape and body depth. 19C is possibly the most impressive balancer bull we have ever seen with extra virility and soundness. Use this top growth bull to add pounds to your bottom line and the structure to carry it well.

C503 Young Gun

Homo Polled - Homo Black

Black Balancer BA

VLK C503 Young Gun was the 2017 Reserve National Champion Balancer bull and he's proving to be an equally impressive breeding bull as well. His first calf crop data at Post Rock of 99 BW 102WW indicates he's a low birth, high growth bull and our eyes tell us they have his eye appeal, rib shape, muscle and structural correctness to go with his impressive data.

DLW Sand Trap ET

Polled - Homo Black

Black Balancer 63%

Homo Polled by birth right. Sand Trap is the lead bull in our National Champion Pen of 3 bulls in Denver. One of the highest quality Balancer bulls to sell anywhere in 2016. Out of a tremendous female that needs no introduction in Matron 802U! Sired by the great Sandhills bull that has proven his worth in the quality of progeny across the nation. This Homo Black herd bull will have heavy use across the country including here at Warner Beef. Don't miss an opportunity to own one of the best Balancer bulls out there. Herd Sire Candidate.

GGGE 3G Bootlegger 439B

Homo Polled - Hetero Black

3G Bootlegger 439B was the 2015 Reserve National Champion that is sired by the two-time National Champion 3G Zip Line however more important that his winning history is his success as an outstanding low birth weight sire. His pedigree comes stacked with calving ease and maternal strength and his first calves have come super easy and grow into that practical, productive cattlemen's kind.

EGL Lifeline B101

Homo Polled - Homo Black

Lifeline was very popular in semen sales for 2016. This homo polled homo black sire has great eye appeal, calving ease for the heifers and still maintains excellent performance. Lifeline was the 2016 NWSS Champion Balancer. This looks like a female producing machine for future generations. Use Lifeline on your heifers with confidence.

AHL Tenderloin

Homo Polled - Black

Homo Black and Homo Polled. Tenderloin brings more to the table than most any other bull on a numerical value. He is in the top 25% or higher on almost every measured trait. His CED is in the top 4% and has been successfully been calved to a limited number of heifers. They have outstanding growth and to top it off Tenderloin is one of the best carcass bulls available in A.I. The Tenderloin progeny really excel in phenotype with his first daughter shown winning her class at the National Western Stock Show. Use Tenderloin to improve phenotype and add genotypic values that will improve your herd for years to come.

Polled - Black

Simply the Balancer bull that has taken the Gelbvieh/Balancer breed by storm since he sold for \$42,000 at the 2012 Cedar Top Ranch annual bull sale. Syndicated at the time with no semen sales until now. Sandhills progeny have performed at every level of the beef industry. Steers by Sandhills have topped Superior Livestock Market for 4 years in a row, due to their extreme consistency. Sons and daughters have topped seedstock production sales by all the owners with several selling for 10, 20 and 30 thousand. Commercial bull buyers demand the sons, they add pounds and produce elite female replacements. Daughters have tremendous breed back raising their first calf and look like the kind that will be producing for many years

BGGR Mr Front Page 114W

Polled - Black

Older bull that was brought back after proving himself in a commercial herd. On season of use in registered herd resulted in all birth ratio's below 100 and all yearling ratio's over 100. The cattle are born smaller, have bone and grow especially well. In the commercial herd all the steer progeny by 2 year old heifers made it to the big sort of steers, defining their ability to excel even with a female that may not have as much milk. One could imagine what they would have done if used on cows. Use Front Page 114W to add performance in a low birth weight package. A bull that is what the beef business is all about. A must use sire in 2017!

TJB Dominic 844F

Dominic is the result of stacking generations of dominant cows from the TJB program into a pedigree that excels for fertility and longevity. His genetic predictions elevate him to the Top 5% of the breed for several economic traits. Breeder Dr. Todd Bickett describes Dominic as a genetic and visual masterpiece that has taken years to produce. Ideal for seedstock and commercial applications, Dominic can be used to produce elite purebreds, percentage and composite cattle.

Polled - Red

Legacy is an outcross red purebred bull that offers elite level growth as well as above average calving ease. He has a smooth head and shoulders and has been used successfully on heifers. Legacy is a big footed bull with a little extra frame and his first calves have shown fairly high level growth. Legacy comes from a highly maternal cow family that excels in milk production and udder quality.

AWB Birch's The Boxer 21D

Homo Polled - Diluter Free

Red Purebred PB

The 2018 Canadian National Champion Bull, AWB BIRCH'S THE BOXER 21D. He has carried a striking presence about him from the get go; his length of spine and overall design are immediately eye catching. The Boxer is extremely clean made, totally ideal in his foot structure, exceptionally haired and has unbelievable extension through his neck and skull. He is supple in his movement, has exceptional testicular growth and offers an extremely balanced EPD profile. Great bulls are backed by great dams and The Boxer's dam is absolutely stunning! She is in Twin View Lucestock's flush program and comes from generations of powerful females. He has been successful in the show ring but also in the pasture.

Homo Polled - Red

DLW Arapahoe 207A- Homozygous polled, diluter free 94% Red Purebred sire. Arapahoe offers exceptional calving ease and growth in the top 25% of the breed while doing it in a moderate framed, eye pleasing package. One of the stout made purebred bulls that still offers a soft, contemporary look with above average volume. Sired by the great calving ease leader Hille X102 and out of the Post Rock Rhonda cow family adds creditability to this outstanding sire.

Homo Polled - Diluter Free

The breed leader for Tenderness through GeneSTAR testing. Collateral brings the complete package, including a rarity of 5 out of 6 Tenderness genes. Nursed awesome first calf heifer that flat knows how to spread low birth to robust growth. If you are looking for that sire to add the all-important Tenderness genes without sacrificing phenotype, muscle and structure - look no further. Homozygous polled by DNA testing.

Homo Polled - Red

NEW!

Homo Polled 50/50 that was our high selling and most talked about Red GV/BA, that combines our most prominent Gelbvieh donor with our all time high selling bull. His sire Draft Pick has 3 of the most prominent Red Angus cow families in his pedigree. Game Day has a chance to get fans of red genetics excited. Not only is he a standout amongst the competition phenotypically, but genetically as well. He ranks among the breeds top 3% for CED top 15% for BW while still being in the top 30% for YW and top 25% for FPI.

Excellent red Balancer bull to use on heifers. His epd's rank him in the top 2% for CE and BW while still being in the top 25% for growth. He will moderate those big frame cows if you are looking to downsize some females. He is approximately a 5.5 – 6 frame bull with excellent testicular development. He produces moderate calves that exhibit a good amount of muscle expression. The heifer calf pictured here is an excellent representation of the first set of calves produced at Cranview Gelbvieh in 2016.
