

Semen Guide

2026

Serious Genetic Value.

2026 Allied Semen and Genetics

What a year it has been for the cattle industry. Great, profit driven genetics have moved to the front of the pack with the largest price differential for superior seedstock ever. This opportunity gives all of us a chance to choose from the best and make years of genetic progress for profit, during a time where the value feedback is just months away.

The Allied program and semen business has always been based on the premise that there are true value differences created by selection for superior genetics and that access to those options are key to the success not only of individuals, but the beef chain as a whole. Everyone needs genetics that reduce the costs associate with production. Everyone also needs genetics that deliver distinct value differentiation to the fed production and food chain portions of our systems. It is the system that must be promoted from beginning to end in order to deliver the total net income that it takes to keep our 150 Billion Dollar beef chain of production functioning and profitable for so many who count on it.

Genetic decisions have at minimum a 10 to 20 year horizon for profit effects on farms and ranches and for the larger beef industry. At Allied we take the responsibility that comes with that reality very seriously. No games, no genetic rationing, no political wranglings, just business based on the most advanced tools for genetic improvement followed by an unwavering commitment to customer services. We do our job so that our customers can be more successful. That is simply what this industry needs and deserves.

With those core values in mind, the Allied offering and philosophy is unique. The very best genetics available for industry success at prices reasonable enough that everyone can benefit from the profit potential they offer. I hope you will agree the pages of our 2026 directory are filled with cutting edge genetic solutions. All are genetics produced and owned by independent cattle producers in absolute support of independent cattle producers.

Sincerely,
Marty Ropp, Founder
Allied Genetic Resources

ORIGen

www.ORIGenBEEF.org

ORIGen is a proud partner of Allied Genetic Resources. ORIGen and Allied Genetic Resources are two genetic companies, owned by breeders, that have united to help both groups of breeders market their Master Breeder Genetics. Through this partnership, you as customers can purchase semen from both organizations through one location by simply contacting an Allied representative or ORIGen. ORIGen is also a custom collection facility that collects and distributes Allied sires.

- One of the finest Genesis sons you will find whose genetic profile continues to climb with every calf crop.
- Culmination offers unlimited outcross options backed by a cow family that consistently transmits increased genomics for added profitability for EPDs, especially API and TI. His dam, 9047G has placed three bulls in breeders' hands in Culmination, Prosperity and 4262M Enhancement in the 2023, 2024, and 2025 Gibbs Fall Sale.
- Culmination has developed into a powerful, high volume, easy keeping, slick-haired bull with a great look and transmits size, length and muscle to his progeny.
- His first progeny was the high-selling sire group at Gibbs Farms. The first 9 sons and 1 daughter averaged over \$23,000 in the fall 2025 sale.
- Expect profitable progeny. He ranks in the top 1% in maternal weaning weight, carcass weight, marbling, API and TI. There are 7 more traits in the top 10 to 25% of the breed!
- GIBBS Culmination is the sire of choice for either maternal or terminal breeding objectives.

GIBBS Elite, GIBBS Culmination Son

 ASA# 4190235 DOB: 2/1/2023 Tattoo: L254

Owned by:
 Gaston Hornung || Little Bitterroot River Simmental

- Logan brings the phenotype, genomics and growth of Genesis to the next generation and offers a red gene for those wanting to create new and valuable red options.
- Wonderful for feet and structure, Logan offers the excellent depth of heel and joint angle that his pedigree promises.
- Deep sided, level topped and very attractive on the profile, he was a crowd favorite at the Bulls of the Big Sky sale for the Carr family.
- He ranks in the top 5% for marbling, 10% ribeye area, 10% API, and 4% for TI.

 Clear Springs Cattle Co

- King James, the former lot 1 and high seller on the Bred for Balance sale, has had quite the journey. After initially freezing semen as a yearling and then running on cows, he did not freeze again for a while. Our best guess is that he had trauma to his testicles. We took him in this spring to see what his status was and he froze high quality semen on his first jump, so the bull that has worked so well across

Lot 1 on Great Lakes Beef Connection 2026, CLRS King James Son

\$27,000 son from Larson's Lost River going to Werning Cattle

the country producing consistent high sellers and very marketable progeny is back on the market!!

- With breed leading growth, tremendous muscle shape and standout carcass merit, look to King James to continue the greatness of Genesis, Proclamation and Cowboy Cut.
- On the maternal side of his pedigree is the potent 317 cow, the dam of Guardian and Homeland, who transmits excellent longevity to her descendants.

 ASA# 4521157 DOB: 4/16/2025 Tattoo: 545N

Owned by:
 SRF Simmentals || Forseth Livestock || All Beef

- New and valuable, outcross opportunity in a breed focused on options to manage genetic diversity.
- Most outcross options have a hole or two in their genetic profile because they are unique. Nexus does not, with 10 traits in the top 25% of the breed and a top 5% for \$API.
- Physically, he is striking for length of side and front, cleanliness of pattern and he is blessed with both extra muscle and body.
- Out of the burgeoning outcross sire, WS Jesse James and the unique NLC Dixie Doll donor he is a great candidate for the future.
- Just an April calf, we are hopeful, but not certain for spring availability?

- Big time calving ease prospect in a horse-power package! Killebrew is thick, powerful, and long. He is also smooth attractive and built with flexibility and eye appeal.
- Excellent carcass combination on Killebrew. He ranks in the top 4% for marbling EPD and 2% for ribeye area EPD. He also scanned the biggest ribeye in his contemporary group with a 114 ratio.
- Killebrew combines two. Of the breed's greatest donors directly in his pedigree with 106Z and Sugar! Proven and profitable with a top 2% API rank!
- Physically, he is a near flawless bull with excellent structure and foot quality. Killebrew was a sale feature and 2nd high selling bull from the 2026 KBHR bull sale.

- Cimarron daughters are making a case that he should be used again this year and for years to come. I have been through 2 large sets of daughters in the past year that were simply as good of females as you can make. Moderate sized, great udders, solid feet, and walking next to big attractive calves. They are simply hard-working females that will draw envy from those who see them. Cimarron's daughters look more like the 106Z donor female at KBHR than any of her many other granddaughters and that is a wonderful thing.
- Elite calving ease genetics and fabulous, low maintenance daughters.
- Top 10% for maternal calving ease, calving ease, and stayability. Also, in the top 2% for marbling. He's a powerhouse \$API bull with balanced, profit improvement.
- Use Cimarron to promote low labor, low input and profitable beef production.

ORigen
Homozygous Black, HOMOZYGOUS Polled || PB SM
ASA# 4361066 DOB: 1/11/2024 Tattoo: M13FOwned by:
Martin and Son Farm

- RightScore 5 G+ ATM in a stout-made, sound-footed, homozygous black baldy package with a super laid back disposition.
- Balanced EPD profile, blending the performance and carcass relevance of his sire, Genesis, with the maternal confidence of a proven and predictable cow family at Martin Farms.
- A higher octane, baldy version of his respected maternal brother, MF/BMF Hilljack, Marcato is backed by a pedigree stacked full of cow makers: Hook's Bounty X TNT Tanker X Preferred Beef X Nichols Legacy X 3C Wally X Irish Black Knight.
- First calves have been born easily and have plenty of vigor and early performance, and he is consistently transmitting that trademarked blaze face.

MF Flower, Dam of MF/BMF Marcato

Homozygous Black, Homozygous Polled || PB SM

- A purebred, baldy, outcross is hard to come by these days. LCDR RESERVE continues to prove himself with high-selling progeny.
- Reserve daughters are simply special! Udders, feet, fleshing ability and docility improvement every time. You will love them!
- Phenotypically impressive, he is excellently structured with good

Lot 56 Gibbs Spring Edition Sale 2026, LCDR Reserve Son

Lot 72 Gibbs Spring Edition Sale 2026, LCDR Reserve Daughter

feet and is well-balanced, striking in his appearance from the profile. His large frame and length of side add to his value as a growth bull.

- The G+ / ATM sire is in the top 2% for weaning weight, 3% for yearling weight, and 5% for carcass weight. That added carcass weight, along with his 1% ranking for ribeye area, makes him a proven terminal sire.

 ASA# 4104285 DOB: 3/24/2022 Tattoo: K167

Owned by:
 Gibbs Farms || JC Simmentals || Keller's Broken Heart || All Beef

- KBHR SCREENSHOT is the preferred bull for performance-oriented breeders seeking to produce profitable offspring for any breeding objective. KBHR Screenshot redefines the standard for white-faced bulls.
- Massive growth every single time with high producing daughters as well.
- This striking baldy is in the top 1% for TI and 2% for API. His genetic profile makes him a standout, offering six traits ranked in the top 1% of the breed. He leads in growth, feed efficiency, and carcass quality, making him an exceptional sire prospect.
- Phenotypically, he is eye-catching. KBHR SCREENSHOT was the featured lead-off bull at the Keller Broken Heart Sale in 2023. He is powerful, loose-structured, docile and well-balanced.

 All Beef || Lucas Cattle Company

- Maestro just might be the most balanced and attractive of all the power bull sons looking to replace the breed leader, LBRS Genesis.
- Make no mistake, he is a 6 plus framed, wide body that performed with the best of his group and was easy to find phenotypically. He too is a good structured, footed, and dispositioned bull.
- This G+ bull's 1% rank for docility, 5% rank for API, and balanced

GIBBS 0425H Blackcap 1145Y, Dam of LUCAS Maestro

LBRS Genesis, Sire of LUCAS Maestro

maternal EPDs suggest his daughters will be ideal for retaining as replacements. At the same time, he's in the top 3% for TI, suggesting he works for both terminal and maternal breeding objectives.

We all know about the value of LBRS Genesis, but don't forget the bottom side of his pedigree. He's out of the great GIBBS 0425H BLAKCAP 1145Y donor who reduced the BW from Genesis. She is developing a reputation for producing high selling progeny and is a popular SimAngus female known for her great udder.

Owned by:
Hall Stock Farms || Bridle Bit Simmentals

- GTO offers genetic balance and his combination of carcass and maternal traits places him in rare air in the IGS database.
- Maternal brother to the \$200,000 Bridle Bit Prelude, a lead donor for Rydeen Farms in MN.
- One of the bigger outline Pontiac sons to sell in 2025 who should sire striking type and genetic excellence.
- Calves have been really nice, most came at a consistent 85-95 lbs. The calves have had plenty of shape, width, and a lot of look! They have added feature of bone and added depth of body.
- GTO should cross well on extended prettier cows.

RightMate

powered by  TOP GENOMICS

You've narrowed down the list of the sires that will drive your program's direction for the future. The success of your operation is in the balance. Now, you can go to the next level with a **RightMate** evaluation powered by **Top Genomics LLC** to prescribe the bulls that genomically compliment each female. Sharpen the list of candidate sires, maximize improvement potential, improve calf crop uniformity and avoid the wasted matings that take dollars from the operation and can lead to early culling of females based simply on a missed opportunity for her to do better.

Whether you are making matings for each cow in the herd or making the expensive decision for a flush of the best donor in the herd, RightChoice is a must for your decision-making tool box. The best sire choice for each cow has always been our focus as breeders but in fact, the bulls you don't choose from your options are even more important.

GIVE US A CALL FOR MORE INFORMATION AND TO MAKE THE POWER OF RIGHTCHOICE WORK FOR YOU.

DOB: 2/26/2022

Tattoo: K18

Owned by:

Diamond H Ranch || Rydeen Farms

- Big, stout, growthy red option whose dark red calves really push down on the scales!
- Special value on the maternal side as well with a tremendous set of EPDs for the cow complex, MCE, MWW, STAY, Doc, and \$API.
- His dam is making a great case for herself as the very best red donor in the breed.
- Look for his sister, RFS Luna K63 to keep doing great things!

Bruno Daughter

RFS Luna, Full Sister to RFS Bruno

Red, Homozygous Polled || PB SM
 ASA# 3953952 DOB: 1/18/2021 Tattoo: 99J

Owned by:
 Genex || JC Simmentals || All Beef

- His name is BURLEY for a reason! His progeny continue to have growth, volume, and muscle thickness.
- This power bull combines his stoutness with improved structure and hoof quality.
- Burley's dam is one of the very best at Red Hill Farms, performing at the highest level on fescue with 7 calves ratioing 107 at WW and 109 at a year.
- His genetic profile predicts his progeny should have balanced genetic improvement, being in the top 15% and 10% for API and TI, respectively.
- Burley is a great complementary sire for Red Angus females.
- His dam and sisters were among the features at the Red Hill mature dispersal in 2025 and absolute stick out, power red cows.

- Moab's progeny have shown explosive growth and have been very popular among commercial herds searching for greater performance and more size.
- There will probably never be a photo taken of this bull, but healed up from his injuries and bred cows nicely.

Lot 241 Bulls of the Big Sky 2026, RR5-MR Moab Son

Lot 237 Bulls of the Big Sky 2026, RR5-MR Moab Son

- Vigorous, fast-growing progeny are being reported everywhere and the kind of genetic values everyone needs to be competitive with a \$TI greater than +115 and \$API just above +190.
- Moab is extremely unique too in that he is a nearly 7 frame son of IR Imperial that literally took over the 2023 Michigan bull test against all breeds for all traits including growth, ribeye area and marbling.

Owned by:
Jared Dalling || Kelller Broken Heart Ranch || All Beef

- It is time to give this powerhouse Red bull another look if you want the performance, structure, body volume and maternal prowess he is proving to have.
- All American just might be the physically most ideal red bull you can make, especially as a true performance bull.

- Expect his STAY to rise as well because his daughters are fabulous with excellent fertility and zero reports of the challenges experienced by some All Aboard daughters. Well over 200 daughters now in production, many already are 5 and 6 year olds.
- Tremendous and wholly complementary choice for Red Angus females, he is a big favorite too of cattle feeders, because of the growth and density of his calves.

Son from Keller Broken Heart 2022

High selling son of All American from KBHR

Improved Buying Confidence with Greater Genomic **ASSURANCE**

Access to more and better information has always been key to making wise decisions. The evolution and improvement of genetic evaluation tools too has given us an ever-clearer picture of the true genetic makeup of cattle and thus a better view of the value proposition. RightMate, powered by Top Genomics LLC is taking the evaluation of genetics and genomics one giant step further. By combining specific genomic information with the long-proven value of EPDs, this new advancement in technology improves our depth and precision when evaluating the actual ability to transmit value and profit.

The 3 Accreditation Logos below are designed to simplify bull selection and improve buyer confidence by more accurately describing the genetics offered and by reducing risk. What this means to you as a customer is a much greater assurance that you are getting both what you want and need from the genetics you purchase. What it means to your seedstock provider is access to RightMate technology that simply sets them apart from the rest of the industry.

ACCREDITED GENOMIC PLUS – For the majority of producers who simply need consistent and balanced genetic improvement, without genomic setbacks, G+ Accredited bulls should be on your list for premium purchase. These sires will absolutely move you forward

for both cost reduction and income producing traits and substantially reduce risk when compared to all other evaluation programs. It's simple, the right genes are in these bulls to help secure a profitable future and the they have great EPDs to match!

ACCREDITED TERMINAL MATE – Just like an ATM machine makes it simpler to access your cash, the ATM Logo highlights bulls accredited to generate extra cash income as soon as your next calf crop! These bulls are meant specifically to use only on mature cows and for the purpose of adding performance, pay weight and end product value to market.

ACCREDITED CALVING EASE – Simply find bulls with the ACE logo for third party Accredited, secure Calving Ease bulls. Though we have had tools in the past to assist in choosing heifer bulls, we've never had one nearly this effective. The reduced risk that comes with this

genomic certification will simply make your decisions easier and your heifer calving season more successful. Purchase special purpose ACE bulls with confidence. They will deliver consistent and predictable calving ease.

 ASA# 3555669 DOB: 2/12/2019 Tattoo: JC403G

Owned by:
 JC Simmentals || Advanced Beef Genetics || Salinas Farms || All Beef

- Commercial cattlemen and seedstock producers alike need to seriously consider Talon because he is the very definition of profit focused, practical and balanced.
- Talon will calve to any heifer, anywhere, but will still produce dense made, thick, easy doing calves that grow well and never have a bad day. To date he has successfully calved to more than 1000 heifers.
- His first daughters too are exceptional. Moderate framed, low input and ultimately quiet-natured, they have wonderful udder structure and teat size.
- Talon even hits a lick on the carcass side with big ribeye improvement and marbling potential.

- Can't miss, highly proven, must use heifer bull with progeny that keep up and have amazing look and marketability.
- Calves are deep sided, level and square, with attractive features, great width of rib and quarter. He stamps them all that way.
- Expect easy keeping, productive daughters following in the footsteps of his extra productive, outcross dam.
- Cattle have little to no hair, because they are comfortable in almost any environment.

- IRON CREEK NEVER SAY NEVER adds pounds and value every time with power, growth and exceptional marbling.
- 6 plus frame power bull on your radar for improved down chain value creation. His stayability is exceptionally high among first generation SimAngus, partially because of his highly maternal donor dam.
- Physically, the 9 calves are clean made, deep sided, level and attractive on the profile and offer outstanding customer attention.
- Ranking in the top 1% for API and 4% for TI at press time are truly special profit values.

- Mojave may be the most unique sire to add fresh genetics to the red population in some time! His outstanding EPD profile is highlighted by his top tier maternal traits, including STAY, CE, MCE and MILK.
- He is an extremely easy fleshing bull with great testicular development and masculinity.
- With his clean head, neck and underline, added muscle shape and volume and overall balanced structure, Mojave is set to do great things!

- The \$32,000 lead off bull from the wildly popular Comstock sons at the 2025 Bred for Balance sale!
- Matador provides a world of balanced trait selection with all the intangibles of hoof quality, muscle expression, masculinity, scrotal development and udder structure.
- Clean made with a level top, this exciting half-blood sire, whose first calves just hit the ground and are fancy made, will make females who stand the test of time with his top tier STAY prediction!

- Great look, Calving Ease, Carcass Value and Maternal prowess made Bold move and easy one to find at the 20025 Triangle J Sale.
- He's simply striking to see from the side as well with exceptional levelness of top, a great neck shoulder tie in and a flank that extends all the way back. He's made to sire great females.
- Safe for heifers as he's in the top 10% for calving ease. He's in the top 10% for stayability and 1% for MB genetics. Include his top 1% API, his genetic profile is extremely profitable for maternal breeding objectives.
- Check out his reputation Angus pedigree on the dam side too. This true F1 is worth a second look.

- The high selling pick of many at the 2025 Gateway Simmental's Lucky Cross bull sale because of his outstanding combination of performance, genetic value, elite carcass EPDs and phenotype.
- GW High Ground was the #1 ranking bull out of a large, competitive contemporary group at both weaning and yearling, indexing 121 and 117 respectively.
- Hard to find combo of marbling and rib-eye, ranking in the top 2% and top 15% accordingly.
- Impressive width and dimensions front to rear, with chest width, true rib shape and masculinity.
- The young dam of High Ground is a cow to watch in the future. She is a prototypic GW cow. Sound, moderate, deep bodied with perfect udder shape.
- First calf reports are saying perfect size, dark color with vigor and appear to carry muscle expression and shape

GW High Ball, Sire of GW High Ground

- Mozart has a unique pedigree and EPD profile on a 6+ frame. WS Sugar, needs no introduction and his Angus Sire, Willimas Hollywood, produced a dynamic bull in Mozart.
- Mozart is in the top 1% in the database on WW, YR, ADG, TI with CE in the top 20%, MM 25%, CW 10%, MAR 15%, REA 15% and API 10%.
- Mozart travels with ease, tracking like a cat on great feet and legs. He is slick haired, and doesn't have any extra leather, extremely clean from head to tail.
- Mozart has the CE, Performance, Carcass, API and TI in one package. He is a go to sire from heifers to cows while maintaining the structure to produce the carcass the industry is requiring.

CLRS NORTH STAR 2117N

Homozygous Black, Homozygous Polled || 3/8 SM 5/8 AN
 ASA# 4543815 DOB: 1/27/2025 Tattoo: CLRS2117N

Owned by:
 Gonsior Simmentals || Clear Springs Cattle Co

- The \$36,000 top seller from the 2026 Bred for Balance Sale, THANK YOU Gonsior Simmentals for your investment!
- North Star is a true outlier for spread genetics, being the only SimAngus bull in the database with his level of CE, BE, WW and YW!
- His ultra unique pedigree makes him a valuable asset to todays Simmental population while his ground pounding performance, huge rib shape and superb structural integrity make him ideal for the todays beef industry.

Homozygous Black, Homozygous Polled || 3/8 SM 19/32 AN 1/32 AR
 ASA# 4566675 DOB: 8/24/2024 Tattoo: 402M

Owned by:
 Klein Ranch || Mike Bartush

- Elite carcass value, designed for creating the next generation of high value SimAngus.
- Monumental was admired on sale day for his usefulness; as he is big-bodied while being contractually sound.
- Monumental's donor dam (Jazzy Jane J1101) has currently raised 2 breeder bulls and an upcoming potential donor at Klein Ranch.
